

TEXAS LONE STAR VICTORY RANCH

Texas Lone Star Victory Ranch rests in the heart of the majestic Rio Grande Valley surrounded by farmland, this center offers the peace and quiet that is so conducive to the recovery journey.

This highly effective treatment program is recommended for all drug and alcohol addiction cases, and has also proven to be successful for cases that have been resistant to conventional treatment methods. Positive outcomes are guaranteed with a free return program review within 6 months of graduation.

This facility provides the comfortable environment and amenities necessary to carry out the program and it includes a pond, sauna, volleyball court, basketball area, football area, fitness area, and walking/jogging areas. However, it is the rigorous physical and mental rehabilitation methods that are responsible for the 76% success rate of the program.

INNOVATIVE REHABILITATION

AN INNOVATIVE PROGRAM — handling both the physical and mental aspects of addiction with alternative rehabilitation methods, providing much higher success rates than conventional methods. Throughout this holistic approach to treatment, nutritious meals and added vitamin supplements are provided to restore general diet, health and sleep.

Originally founded by William Benitez using the rehabilitation methods of L. Ron Hubbard, the program's drug free rehabilitation technology at Texas Lone Star Victory Ranch resolves addiction by removing drug residuals from the body and restoring a person's ability to confront and resolve their underlying problems which lead to their addiction.

THE NEW LIFE DETOXIFICATION PROGRAM utilizes sauna detoxification therapy to eliminate the potentially stimulating drug and alcohol residues that are stored in the body's fat cells by accelerating the body's natural perspiration process, while a special vitamin and mineral therapy is applied to aid detoxification and replenish deficient nutrients.

THE LIFE SKILLS PROGRAM is an intense eight part educational program that restores communication, awareness, understanding, problem solving, responsibility, integrity and honesty. This gives each participant the tools they need to resolve their addiction, regain control of their lives, repair their relationships and accomplish their future goals.

Fitness Area
Walking/Jogging Areas

SUCCESS STORIES

I had been abusing pain (opiate based) pills and methadone for over 20 years. Halfway through the sauna program, I started sleeping better, eating better and looking better. I was finally becoming a human being again. Once finished, I learned who I really am and want to be. I learned how to take back control over my life. I believe that if this program could help save my life then it could save anyone's life.

I am forever grateful to my family for sending me to Lone Star Victory Ranch, forever grateful to God for answering my prayers and forever grateful to the Narconon program for giving me the tools to be successful in all areas of my life. — A.C.

At Lone Star Victory Ranch, I found out for myself why I was doing the things I was doing and I began to understand why I was making the decisions I had made. I found a new responsibility for myself and for others around me and I knew what I needed to do exactly to correct my past actions. I completed the program in July 2010 and since then, I have not drank any alcohol and I have not had the desire to. I owe my life and sobriety to Narconon. — M.Y.
